

**LA Constellation of Vital Phenomena**

A Novel, by Anthony Marra  
(Hogarth, 9780770436407, \$26)

"In *A Constellation of Vital Phenomena*, Marra expertly balances the pain and suffering inflicted during the Chechen conflict with exquisite moments of loyalty, sacrifice, humility, and enduring love. He intricately connects the lives of a group of unforgettable characters in wholly unexpected ways, slowly revealing their collective past, present, and future. As their breathtaking stories compel you forward, I urge you to slow down and savor the vivid imagery and lyrical prose on each and every page. Aptly named, Marra's debut is indeed phenomenal."
